

AMENDED

APPLICATION FOR PERMIT

Serial No. 3676

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office NOV. 4, 1915.  
Returned to applicant for correction NOV. 17, 1915.  
Corrected application filed NOV. 22, 1915.

The undersigned John G. Taylor and J. Sheehan  
Name of applicant.  
of Winnemucca, County of Humboldt,  
State of Nevada, hereby make<sup>s</sup> application for  
permission to appropriate the public waters of the State of Nevada,  
as hereinafter stated. (If applicant is a corporation give date and  
place of incorporation.)

1. The source of the proposed appropriation is Devil's Canyon  
Name of stream, lake, or other source.  
Creek.

2. The amount of water applied for is 8 second-feet.  
One second-foot equals 40 miners' inches.

3. The water to be used for Irrigation and Domestic.

Irrigation, power, mining, manufacturing, domestic, or other use.

4. The water is to be diverted from its source at the following  
point: NE $\frac{1}{4}$  NE $\frac{1}{4}$  Sec. 1, T. 35 N.R. 39 E., M.D.B & M.

Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

(a) Number of acres to be irrigated is 800

(b) Description of land to be irrigated The NW $\frac{1}{4}$  of Sec. 32, W $\frac{1}{2}$   
Describe by legal subdivision, or if on unsurveyed land it

of Sec. 29, W $\frac{1}{2}$  of Sec. 20, T. 36 N.R. 40 E., M.D.B & M.

should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

(c) Irrigation will begin about March 1st and end about  
October 1st, of each year.  
Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE  
FOLLOWING INFORMATION:

(d) Power to be developed is horse power.

(e) Works to be located

Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.

(f) Point of return of water to stream Not to be returned.

Describe in same manner as point of diversion.

(g) Remarks

### DESCRIPTION OF PROPOSED WORKS

Small diverting dam at the point of diversion, thence by ditch

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

about a half mile long to the main ditch from Pole Creek.

is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works \$300.00

6. Estimated time required to construct works Thirty days.

7. Remarks This water has always been used on the lands of applicants.

For use of applicant.

JOHN G. TAYLOR and J. SHEEHAN , Applicant.

By J.A. Langwith.

### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the source. The amount of water herein granted is placed at 8.0 cubic feet per second for the full acreage of land described, notwithstanding the fact that a water right for a portion of the land is claimed under proofs of appropriation Nos. 00120A and 00120B and a further portion of such land has already been granted a right under permit No. 3657, so that such amount of water may be diverted and used in the event there is a shortage in the sources described in the proofs of appropriation and permit above mentioned. However, the total amount of water granted from the combined sources described in the above mentioned filings shall not exceed the statutory allowance for the maximum acreage of land enumerated therein. The applicant will be required at the time of filing proof of beneficial use of water to definitely segregate the areas of land which obtain water for irrigation purposes from this source and the land which is entitled to a right from Pole Creek under permit No. 3657 so that certificates may be issued for the land to which the waters of each source are appurtenant. However, the acreage in conflict entitled to a vested right, if any, will be eliminated from the certificate under this permit when issued. A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times.

September 13, 1923. Proof of the application of water to beneficial use must be filed with State Engineer on or before October 13, 1923.

Cancelled Jan 22, 1918 because of failure of applicant to comply with provisions of permit. WITNESS MY HAND AND SEAL this 1st day of September, 1916.
